

**Traffic Calming – Abberd Way, Calne**

**COMMENTS ON OBJECTIONS**

There have been no objections to the traffic calming itself. There has been a total of one objection which concerns the loss of time carers would spend with a frail and housebound lady. The request for a parking space cannot be included as this would conflict with the location of the traffic calming proposal. The time a Council funded carer spends with the lady will commence at the time when the carer arrives at the accommodation and not from when the car is parked.

The scheme is fully supported by The Area Board. It is recommended that the traffic calming is implemented as advertised.
