

Review of Connect2 Wiltshire services in Calne and the Kennet valley

Summary of proposed changes

The Calne to Marlborough service (Line 4) would operate approximately every 90 minutes during weekday daytimes, with some changes to which journeys will divert to the various villages along the route

The 'Heddington circular' (Line 5) would operate four journeys a day.

Both services would run according to a fixed timetable, and the current arrangements for passengers to book in advance for travel from certain locations would no longer be available. In most cases these would be replaced by fixed diversions of certain journeys.

The Marlborough – Devizes Taxi Buzz service would be withdrawn, although on Thursdays only a new service X10 will operate from Marlborough to Devizes for the Market. This would run via Burbage and Pewsey rather than Avebury.

The 'Night Bus' journeys between Marlborough and Avebury would be withdrawn.

The Calne Town bus service is not included in this review, as it is hoped to be able to offer an enhanced service due to partial funding from the new supermarket development.

Existing service provision

The Connect2 Wiltshire services provide the main public transport for the villages between Marlborough and Avebury, the settlements of Yatesbury, Cherhill, Compton Bassett, and the Heddington / Stockley area, linking them with the towns of Marlborough and Calne. They also provide a service between these two towns, and a service for the Barton Park area of Marlborough.

The Calne to Marlborough service (Line 4) currently operates approximately hourly on Monday to Friday mornings, and slightly less frequently in the afternoons and on Saturdays. Some journeys run via Compton Bassett and Cherhill village, others via Cherhill Black Horse and Yatesbury. The service will divert to Yatesbury only if pre-booked, and diversions to Berwick Bassett, Winterbourne Monkton, Beckhampton Waggon & Horses and East Kennett will also be made if pre-booked. The service is timed to connect at Avebury with buses to and from Swindon, Devizes and Trowbridge.

There is also a Night Bus service that provides journeys from Marlborough to the Kennet Valley villages and Avebury at 2045 and 2310 on Mondays to Fridays.

The 'Heddington circular' (Line 5) currently provides five journeys a day to and from Calne on Mondays to Fridays, via Heddington, Stockley, Blackland Turn and Quemerford. Journeys will also divert to serve Mile Elm, Calstone Wellington and Theobolds Green if pre-booked. On Saturdays Line 5 does not operate, but Line 4 journeys will divert via Heddington if pre-booked.

A Connect2 Wiltshire Taxi-bus runs on Mondays to Fridays from Marlborough to Devizes via the Kennet valley villages and Avebury, arriving at 1000 and returning at 1400. All journeys must be pre-booked.

Use made of the services and cost of provision

Overall, around 33,000 single passenger trips a year are made on the Line 4 and 5 services (excluding schoolchildren entitled to free home to school transport). The cost to the council's public transport budget of providing these services is around £140,000 a year (excluding the cost of providing free home to school transport for entitled children, and reimbursement for travel by concessionary bus pass holders). Income from

farepaying passengers is around £20,000 a year, and reimbursement for concessionary bus pass holders around £27,000 a year.

Surveys suggest that the services are used by around 65 passengers on a typical day, of which around 45% are travelling within the Avebury - Marlborough section of route, 25% within the Avebury - Calne section, 12% from the Heddington area, and the remaining 18% between the west and east sections of the route. Concessionary bus pass holders account for around 70% of the total non-school trips made on the services.

The Night Bus is part of a wider contract that primarily serves the Pewsey Vale area, costing overall around £35,000 a year. Use of the service is low, with an average of around 1 passenger a night travelling on the Marlborough to Avebury route.

The Marlborough – Devizes taxi-buzz is also part of a wider contract that also provides services in the Pewsey Vale, again at an overall cost to the Council of £35,000 a year. It is used by on average around 3 passengers a day, ranging from 5-6 a day on Thursdays (Devizes market day) to only 1-2 a day on quieter days.

Issues to be considered by the review

- The cost of the services is high in relation to the number of passengers carried, with council funding overall equating to around £4.30 per passenger trip. This is considerably higher than the council's normal guideline for support of up to £3.50 per trip. The nightbus and taxi-bus are particularly expensive in relation to the numbers using them, but use of the service as a whole from some of the villages is disappointingly low.
- Because the service is partially demand responsive, the cost of operation includes providing a call centre and the equipment and software needed to make bookings and relay these to the vehicles. If a service can be provided that does not need pre-booking, both here and in the Pewsey Vale which uses the same call centre, these costs could be avoided with a saving of around £70,000 a year..
- As the total income derived from fares is low in comparison with the cost of providing the service, even a
 large increase in passenger use (say 50%) would only make a relatively small difference to the overall
 cost to the council. Financial savings will therefore require reductions in operating costs to be made
 even if passenger use could be increased.

Explanation of proposed changes

The growing pressures on local authority spending and consequent reductions in the budget that the council is able to provide for supporting local bus services means that there is a need to reduce costs in order to make the services more financially sustainable, and to bring the support cost per passenger trip closer to the published guideline of £3.50 per trip. The proposed changes seek to achieve this by;

- Operating a fully timetabled service in place of the current service which is partly pre-bookable and demand responsive, thereby removing the costs associated with the call centre and the booking system;
- Withdrawing the Night Bus and taxi-buzz services
- Reducing the number of vehicles used on the daytime services from three to two, while seeking to
 provide a timetable that will continue to meet the majority of the needs of existing users

The proposed timetables are attached below.

A consultation on these proposals is under way and will close on **14**th **May 2014**. Details of the consultation can be found on the council's website using the following link;

(http://www.wiltshire.gov.uk/council/consultations.htm), or are available from the Passenger Transport Unit, Wiltshire Council, County Hall, Trowbridge BA14 8JN. Views are sought on how well the proposed timetable would meet the needs of different groups of users, and of any important journeys that could no longer be made. A questionnaire for users of the service is also available.

Following the consultation, it is proposed that the new services would be introduced in October 2014.

Monday to Saturday - except public holidays
