

# Progress in developing our Carbon Management Plan

Ariane Crampton  
7 September 2010

## Outline of presentation

- Aims of Carbon Management Plan
- Our general approach
- Our targets
- Council emissions for 2009/10
- Some carbon reduction initiatives already identified
- Resources
- Forecasting
- Financial implications of meeting our targets

## Aims of the Carbon Management Plan

- Define the council's **strategy** for carbon management
- Set out emissions **data**, what it is telling us & how data will be improved
- Set out short term and long term **targets**
- Establish **governance** arrangements for carbon mgt

## Aims of the Carbon Management Plan (contd)

- Consider how the council can reduce CO2 through **on-going work** (eg WTP, Leisure Review)
- Set out **resources** available
- Establish a mechanism for **prioritising** carbon reduction initiatives
- Identify key carbon reduction **initiatives** for 2010/11 and beyond
