## SCHEDULE OF CHANGES TO SOUTH WILTSHIRE CORE STRATEGY (PROPOSED SUBMISSION DOCUMENT) AS A RESUTL OF THE REVIEW 2011.

Note: The text changes here represent changes made to the original proposed submission draft SWCS text (as in the orange book) and do not include and proposed major or minor change consulted on after EIP, nor the changes made by Full Council prior to submission.

Proposed Review Change Reference	CS REFERENCE	CHANGE
	Para 1.1	The Core Strategy (Strategy) is an important document, setting out a spatial strategy and planning policies for the next 20 years. It is a key part of the Local Development Framework (LDF) for Wiltshire. Together with the <u>proposed to be abolished</u> South West Regional Spatial Strategy (RSS), national planning policy and saved polices from the Salisbury District Local Plan, it will form the basis of planning decisions in the shout of the County to 2026. Together this policy, with the exception of national planning policy, is known as the Development Plan.
	Para 1.12	The proposed to be abolished Regional Spatial Strategy for the South West (RSS) forms part of the development plan for Wiltshire and sets out the numbers of houses and jobs that should be provided for. These figures are were identified using a review of evidence on the expected economic and population change, regional housing requirements, resources and infrastructure available, the role and function of places and sub-regional relationships between places. The Secretary of State's Proposed Changes to the Draft RSS for the South West suggests a housing requirement of 12,400 homes for south Wiltshire for the period 2006-2026. This would require an average housing delivery of 620 dwellings per year. This broadly corresponds with the level of need that has also been identified at a local level.—Before the announcement that the RSS was to be abolished the Core Strategy must be in conformity with the RSS.
		The review of the South Wiltshire Core Strategy (SWCS) has been undertaken as a direct response to the Secretary of State's published intention to abolish the emerging South West Regional Spatial Strategy (SWRSS). It is this intention, especially with regards to potential implications on housing and employment figures, that was agreed as the basis for the review with the Inspector overseeing the Examination in Public (EIP). It is the case that growth figures initially in this Submission Draft of the SWCS, were largely based on and in conformity with the figures contained in the last published and proposed to be abolished version of the SWRSS. The Review has concluded that housing and employment numbers should be reduced to 9,900 houses and 10,400 jobs.
	Para 1.13	This Strategy aligns with and is in conformity with other plans and strategies that operate in the area. The Strategy has been designed to be complementary and add a local spatial dimension to other policies and not simply repeat them. The relationship will be made explicit at relevant points throughout the document. Key documents include:

		houses. The levels of growth required accord with those set out in the emerging RSS of 12,400 houses to be delivered in the Salisbury Housing Market Area ('HMA') of south Wiltshire between 2006 and 2026. This figure is not arbitrary, but based on local needs as revealed by analysis of the evidence <sup>8</sup> . In particular the following challenges have been identified:
	Para 3.4, page 20 Para 3.4 (a), page	The Economic challenges faced by south Wiltshire
	20	This section briefly highlights the key economic challenges faced by south Wiltshire <sup>17</sup> .  3.4(a) There is a need to identify land in sustainable locations to provide for about <del>13,900</del> <u>10,400</u> new jobs / <del>37</del> <u>20</u> ha of employment land up to 2026.
		If south Wiltshire is to have a prosperous future then it is necessary to identify where, how and when land will be brought forward to accommodate the level of new jobs required to support prosperous, resilient communities, which provide local job opportunities matched to population in a manner which reduces the need for out-commuting.
	Para 4.0, page 29	By 2026 south Wiltshire will be thriving and vibrant, where people can lean and develop their skills, enjoy a good quality of life and good health in a safe, clean neighbourhood, appreciate a superb environment which makes the most of the natural landscapes and historic buildings and complements them with exciting new buildings.
		The 12,400 9,900 homes will have delivered just under ever 4,000 affordable homes in south Wiltshire. The retail, leisure and cultural function of Salisbury will have been greatly enhanced by the successful redevelopment of the Maltings/Central Park. The successful redevelopment of Churchfields will have created a new and vibrant neighbourhood of the city, with the new and relocated businesses prospering in their new locations. The new homes balanced with the economic growth will have provided local opportunities to work and live in the local area and will have successfully reduced the amount of out commuting.
		Partnership working with the Cathedral authorities and English Heritage at Stonehenge on the implementation of their respective management plans will have greatly enhanced Salisbury's reputation as a major international tourist destination. The important employers at Porton Down, Boscombe Down and the MOD on Salisbury Plain will have consolidated their presence in the area through the realisation of their ambitious future plans.
		Amesbury will remain as an important centre providing a balanced range of homes, jobs and services in a

Proposed Review Change Reference	CS REFERENCE	CHANGE
		sustainable manner and will continue to be the focus of managed growth, providing over 1900 new homes to match the job opportunities at Solstice Park, Porton Down and Boscombe Down. Downton and Wilton will be comfortable with their relationship with Salisbury, benefiting from the level of services and jobs it provides and will have been the subject to new growth proportionate to their size which will help provide local opportunities. Mere's important role as a service centre to a wide rural area, will have been consolidated, with growth of about 270235 new homes by 2026 and allocation of employment land to meet local needs for jobs. Tisbury's role as an important service centre will have been consolidated through careful growth which will meet local needs, but acknowledges the constraints of the road network as well as the opportunities of the rail line, and will have grown by some 460 235 homes.
	Para 4.3, page 30	Strategic Objective 2: To provide everyone with access to a decent, affordable home. This Strategy makes provision for 12,400 9,900 new homes in south Wiltshire to meet demand up to 2026. It sets out a plan for an appropriate mix of types, sizes and tenures, particularly in order to address affordable housing needs. It identifies deliverable strategic sites to ensure there is a rolling five-year supply of housing.
		<ul> <li>Desired outcomes:         <ul> <li>The delivery of <u>12,400 9,900</u> new homes carefully managed to be in the most sustainable location and to respect the local character. Well over half the number will have been built in or around Salisbury, with significant growth in Amesbury.</li> </ul> </li> </ul>
		<ul> <li>More modest growth proportionate to the size of the settlement will have been delivered in the local centres of Mere, Downton, Wilton and Tisbury.</li> <li>The Strategy has addressed the shortfall in affordable homes across south Wiltshire through ensuring a minimum of 40% of such homes have been delivered in all new schemes of 15 or more houses and 25% on developments of 5 to 44 houses.</li> </ul>
		<ul> <li>developments of 5 to 14 houses.</li> <li>All new homes meet the Lifetime Homes Standards, to allow more of the ageing population to live in their own communities.</li> </ul>
		<ul> <li>New homes have delivered water efficiency improvements and where possible, will be low carbon or carbon neutral</li> </ul>
		The regeneration of the UK Land Forces HQ in Wilton with a significant number of new homes matched by employment opportunities will have taken place.  The regeneration of the UK Land Forces HQ in Wilton with a significant number of new homes matched by employment opportunities will have taken place.
		<ul> <li>The regeneration of Salisbury will have been achieved through a residential led mixed-use development on</li> </ul>

Proposed Review Change Reference	CS REFERENCE	CHANGE
		the Churchfields Estate.
		New pitches will have been provided for gypsies and travellers.
		Headline performance indicator:
		Net additional homes provided per year (National indicator 154 to be monitored through AMR).
		Target: average of 620 495 new homes per year.
	Para 4.4, page 31	Strategic Objective 3: To deliver a thriving economy which provides a range of job opportunities to match a growing population and where traditionally strong sectors, such as scientific research and development, continue to be world leaders.
		To facilitate economic growth in a sustainable manner, this Strategy will deliver the following outcomes over the next 20 years:
		Desired outcomes:
		<ul> <li>Land will have been identified in sustainable locations to provide for about <u>13,900</u> <u>10,400</u> new jobs up to 2026.</li> </ul>
		<ul> <li>The business aspirations of Porton Down, Boscombe Down, Salisbury District Hospital and the MOD will have been delivered.</li> </ul>
		<ul> <li>Growth sectors specific to south Wiltshire, such as biotechnology and military sectors will have been successfully facilitated.</li> </ul>
		<ul> <li>Relocation of businesses from the Churchfields Estate to more unconstrained locations will have been implemented.</li> </ul>
		<ul> <li>The regeneration projects identified through the Salisbury Vision, such as redevelopment of the Maltings/Central Car Park will have been delivered.</li> </ul>
		<ul> <li>The loss of 1200 jobs caused by the relocation of the UK Land Forces HQ away from Wilton will have been mitigated.</li> </ul>
		<ul> <li>Strategic employment growth will have been designed to meet RSS and building regulation environmental targets in order to contribute to the delivery of a low carbon economy.</li> </ul>

Proposed Review Change Reference	CS REFERENCE	CHANGE
		Headline performance indicator: Creation of new jobs per year (monitored on NOMIS figures at www.nomisweb.co.uk and reported in AMR). Target: average of 690 520 jobs per annum (as per RSS requirement)
	Para 5.3, page 39	Within these Community Areas the approach is to plan as far as possible for self-contained settlements. This means focusing growth around settlements with a range of facilities, where local housing, service and employment needs can be met in a sustainable manner. This approach is based on national guidance and best practice <sup>43</sup> . A hierarchy has been identified based on the size and function of settlements, which is the basis for setting out how the Spatial Strategy will deliver the levels of growth for the south Wiltshire area <sup>44</sup> . Growth will be primarily focussed on settlements in the first three tiers of the settlement strategy.
		The hierarchy of settlements is as follows:
		A: Salisbury:
		The city of Salisbury is identified as a Strategically Significant City or Town ("SSCT") under Development Policy A of the RSS and is the primary service centre in south Wiltshire. Because of the level of services, shops, jobs and homes the city provides, the larger proportion of growth will be concentrated here. This Strategy seeks to enhance its Salisbury's position as a self-contained settlement, which has a range of homes, jobs and services to offer. This will be delivered through significant growth in jobs, homes and retail provision, based on the release of strategic development sites around the city and regeneration focused on Churchfields and the Maltings/Central Car Park.
		B: Amesbury and the Garrison Villages:
		Amesbury is the second major settlement in south Wiltshire due to its size and range of facilities, and has functional relationships with Durrington and Bulford. Although it is not an SSCT, it has an important function as a service centre, which means it It performs a more significant role than the Local Service Centres identified in (c) C below. The role and function of Amesbury and its close relationship with Durrington and Bulford is explained in more detail in Chapter 8. Because of the level of services, shops and jobs that Amesbury provides, it will be the focus of significant strategic growth outside Salisbury.

Proposed Review Change Reference	CS REFERENCE	CHANGE
		C: Local Service Centres:
		Downton, Mere, Tisbury and Wilton are important local centres that provide a good level of services to their surrounding areas and are equivalent to Development Policy B of the RSS. They are categorised as large villages rather than towns (with the exception of Wilton) and therefore the scale of growth will reflect their constraints as well as the opportunities they offer for sustainable development. A detailed explanation of their role and function is included in Chapters 7, 9, 10 and 11.
		Although Local Service Centres act as important centres these settlements also have important functional relationships with neighbouring settlements, which will influence how future growth is allocated.
		D: Secondary Villages:
		The secondary villages are Alderbury, Broad Chalke, Coombe Bissett, Dinton, Fovant, Great Wishford, Hindon, Ludwell, Morgan's Vale/Woodfalls, Pitton, Porton, Shrewton, Tilshead, Whiteparish, The Winterbournes and The Winterslows.
		In terms of their role, function and level of services, this group of villages perform a less significant, but nevertheless important complementary role to the Local Service Centres. Levels of growth proportionate to their size, character and environment will be supported in these settlements.
		E: Small Villages
		The small villages are Barford St Martin, Bodenham, Britford, Chilmark, Figheldean/Ablington, Fonthill Bishop, Fovant, Gomeldon, Great Wishford, Middle Woodford, Newton Toney, Odstock, Orcheston, Stapleford, Steeple Langford, Wylye and Zeals.
		These are small villages with limited services, which are functionally reliant on Local Service Centres. As such, they do not represent the most sustainable locations for new growth in the rural areas and hence development will be restricted to only infill and exception development.
		F: Other Settlements and the Countryside.

Proposed Review Change Reference	CS REFERENCE	CHANGE
		This tier includes some of the smallest settlements in south Wiltshire, often in remote rural areas and with no facilities of their own. Functionally, they are almost completely reliant on local service centres for day to day needs. As such, they represent the most unsustainable location for new growth and hence new development will not be permitted in these villages <sup>45</sup> . To reflect this any housing policy boundaries for settlements not listed in (A) to (E) or housing restraint areas currently within the Local Plan are removed by this Strategy, and hence new development will no longer be appropriate in these locations.
		This tier includes some of the smallest settlements in south Wiltshire, often in remote rural areas and with no facilities of their own. Functionally, they are almost completely reliant on local service centres for day-to-day needs. As such, they represent the most unsustainable location for new growth and hence new development is unlikely to be appropriate in these villages <sup>45</sup> . To reflect this any Housing Policy Boundaries (HPBs) for settlements not listed in paragraphs (A) to (E) and all Housing Restraint (HRA) and Special Restraint Areas (SRAs) currently within the Local Plan will be subject of a further review in connection with the Wiltshire Core Strategy – where the degree of sustainability of such settlements will be considered on a consistent countywide basis. Until such time as this review is undertaken the HPBs, HRAs and SRAs will remain in place.
		Footnote 45  There are 66 small villages 67 other settlements and a list of these can be found in Topic Paper 3: Settlement Strategy Second Third Addendum.
	Para 5.7, page 42	5.7 The Spatial Strategy for South Wiltshire  South Wiltshire will plan for 12,400 9,900 houses and 13,900 <sup>48</sup> 10,400 jobs over the next 20 years. 13,500 of these jobs will be delivered in the Salisbury Travel to Work Area ("TTWA")49 within south Wiltshire. A further 400 jobs will need to be delivered within the rest of south Wiltshire, outside the TTWA. Essential infrastructure improvements will be delivered when required to ensure that this growth can be adequately supported. Where necessary the delivery of development will be phased to ensure that the infrastructure improvements are implemented in a timely manner. Map 3 sets out the principal elements of the Strategy. In order to ensure that these figures can be delivered, the Strategy

Proposed Review Change Reference	CS REFERENCE	CHANGE
		has been designed to be flexible and to have contingency.
	Map 3, page 43	Remove reference to 'land south of Netherhamtpon Road' map.
	Para 5.8	The Key Diagram illustrates how the spatial strategy acknowledges the dominant role of Salisbury and allocates the majority of strategic growth in and around it to reflect its status as south Wiltshire's SSCT primary service centre. In accordance with the settlement strategy, the important role of Amesbury is also recognised through the allocation of strategic housing. The Local Service Centre will be the main focus of growth within their Community Areas.
	Para 5.12, page 44	Responding to these functional relationships and shaping how they will be in the future, is an essential part of this Strategy. They should not be considered to be either unchanging or benign. For example, the Vision for Salisbury, as strongly supported through the consultation process—and promoted in the RSS, sees Salisbury as a Strategically Important City, which offers a strong range of local homes, jobs and retailing opportunities in a self-contained manner, which can help reduce the need to travel. The historic under provision of housing has been undermining this objective, through driving up house prices, making it difficult for a young workforce to afford a home, which in turn undermines the ability of local employers to recruit staff. This has led to polarisation in the city between a young workforce who find it difficult to afford to locate to the area and an ageing but generally affluent population. This situation means that there is a growing trend of both out and in commuting, which undermines economic productivity and harms the environment. These trends are leading Salisbury towards a larger dormitory role and do not meet the objectives that the community and stakeholders aspire to. Therefore this Strategy is focussed on addressing the causes of the problems, by delivering the local homes, jobs and services that can alter the functional relationships with neighbouring centres in a positive manner.
	Core Policy 1	Core Policy 1 - The Settlement Strategy and distribution of growth in south Wiltshire  This strategy plans for the delivery of 42,400 9,900 dwellings and 43,900 10,400 jobs over the period to 2026. The growth required to meet local needs will be accommodated in the following manner:  Salisbury and Wilton Community Areas  Salisbury and Wilton. Planned growth: 7,480 6220 homes and 36 29 ha (30 23 ha new allocation and 6 ha saved) of employment land. A retail-led mixed-

Proposed Review Change Reference	CS REFERENCE	CHANGE
		use development is also planned.
		The city of Salisbury is identified as a Strategically Significant City or Town ("SSCT") under Development Policy A of the RSS. Salisbury is the primary service, economic and cultural centre for south Wiltshire and, in line with RSS, will remain the focal point for the majority of new development in south Wiltshire.
		Wilton Community Area Planned growth:
		Wilton Local Service Centre: 620 homes, 3 ha of employment land Rest of Wilton Community Area: 950 220 homes
		Wilton is the Local Service Centre for its Community Area and relates to Development Policy B in the RSS. The proximity of Salisbury to the east means that Wilton has a functional relationship with its larger neighbour but retains an identity of its own. The UK Land Forces HQ in Wilton is a strategically important regeneration site, which will deliver employment and housing. The Community Area has-three secondary villages (equivalent to RSS Development Policy C), which are Broad Chalke, Dinton and Great Wishford, where limited growth will be appropriate.
		Amesbury Community Area
		Planned growth: Amesbury Service Centre: 1960 2100 homes.
		Rest of Amesbury Community Area: <u>690</u> <u>295</u> homes, 17 ha of employment land
		Amesbury, with support from Durrington and Bulford, is the Service Centre for the area. Although these settlements are distinct from one another, their close geographical and functional relationships between Amesbury, Durrington and Bulford mean that they constitute a unique group of settlements within south Wiltshire that neither conforms to the SSCT category nor is not directly comparable with any other category of settlement. the Local Service Centres or any of the Village categories. Amesbury Community Area contains the majority of allocated employment land in south Wiltshire (outside Salisbury of the SSCT), including land at Solstice Park, Boscombe Down and Porton Down. Porton, Shrewton, and Tilshead are secondary villages in this community area, as well as "The Winterbournes" collectively. These settlements conform to Development Policy C of the RSS and perform a complementary role to Amesbury, Durrington and Bulford, each having a range a more local of services, which serve the surrounding areas.

Proposed Review Change Reference	CS REFERENCE	CHANGE
		Southern Wiltshire Community Area Planned Growth: Downton Local Service Centre: 190-300 homes Rest of Southern Wiltshire Community Area: 550 365 homes  Downton is a large settlement providing a good level of services and performs the role of Local Service Centre for this Community Area. It provides a good source of employment with one of eight strategically important employment sites in south Wiltshire located in Downton. The secondary villages (equivalent to RSS Development Policy C) in the Southern Wiltshire Community Area are Alderbury, Coombe Bissett, Morgan's Vale/Woodfalls, Pitton, Whiteparish and The Winterslows. These villages provide a reasonable level of local services and facilities where modest growth will be appropriate. The proximity of Salisbury to the north means that a number of settlements located in the northern part of this community area have a much stronger functional relationship with the City performing which performs the
		role of the service centre, rather than with Downton.  Mere Community Area Planned Growth: Mere Local Service Centre: 270 200 homes 3 ha of employment land Rest of Mere Community Area: 20 homes  Mere is the Local Service Centre for this Community Area as it offers a range of services and facilities and is an important centre for the outlying villages in the west of south Wiltshire. This Community Area is unique in south
		Wiltshire in that there are no settlements that perform a secondary village role and hence it is anticipated that the majority of growth will take place in Mere over the plan period. A subsequent Site Specific Allocations DPD will identify where Where exactly this growth will take place will be identified through a subsequent Site Specific Allocations DPD. The existing Local Plan employment allocation at Mere of approximately 3 hectares will be implemented during the period of this Strategy.  Tisbury Community Area Planned Growth: Tisbury Local Service Centre: 160 200 homes. 1.4 ha of employment land Rest of Tisbury Community Area: 270 220 homes

Proposed Review Change Reference	CS REFERENCE	CHANGE
		Tisbury is the Local Service Centre for this Community Area and serves a wide and sparsely populated hinterland. The existing Local Plan employment and housing allocations on Hindon Lane will be implemented during the period of this Strategy. Fovant, Hindon and Ludwell are the secondary villages in this Community Area. These villages provide a reasonable level of local services and facilities and can accommodate reasonable levels of growth. Specific sites that can accommodate this growth will be identified through a subsequent Site Specific Allocations DPD.  The Council's target for housing development on previously developed land is 34% from the date of adoption of this
		Core Strategy to 2026. This includes the conversion of existing buildings.
		Apart from the housing numbers attached to Local Service Centres, development will be focussed on the Secondary Villages in each Community Area. In addition, infill development will be permitted in the Small Villages of Barford St Martin, Bodenham, Britford, Chilmark, Figheldean/Ablington, Fonthill Bishop, Fovant, Gomeldon, Great Wishford, Middle Woodford, Newton Toney, Odstock, Orcheston, Stapleford, Steeple Langford, Wylye and Zeals. Exception development, based on identified local need, will also be permitted in these villages.
		New housing will not be permitted outside the settlements named in Core Policy 1
		[nb. numbers rounded]
		Note: All numbers have been rounded up and include a contingency allowance.
		Targets: Qualitative: The delivery of levels of growth in conformity with the Settlement Strategy; average of 620 495 housing completions per year; 34% of housing completions per year to be on previously-developed land.
		Monitoring and Review: AMR & housing trajectory, number of dwellings built in sustainable locations aligned with the Sustainable Settlement Strategy.
		Delivery Responsibility: Wiltshire Council, Development Industry, Strategic Partnerships.
		Policies replaced: Policy H1

Proposed Review Change Reference	CS REFERENCE	CHANGE			
	Core Policy 2, page 49	Core Policy 2: Strategic Allocations Planning permission will be granted for proposals that meet the requirements set out in the Development Templates at Appendix A of this document, for the following sites:

		Targets: See Core Policy 1; Reduction in local unemployment figures.  Monitoring and Review: AMR housing completions; NOMIS official labour market statistics.  Delivery Responsibility: Wiltshire Council; Developers.  Policies replaced: None
	Map 3b, page 51	Remove 'Land south of Netherhampton Road' from map. Reduce area covered by Longhedge proposed allocation, amend Longhedge annotation to read '450 homes' rather than '800'.
	Para 5.23, page 51	The Strategic importance of the sites  The sites in Core Policy 2 are all integral to delivery of this Strategy. There are a number of important contributions that each will make to deliver the successful outcomes sought through the spatial objectives and these
		(a) Achieving sustainable, balanced growth  The sites are allocated in strategic locations that will contribute to providing balanced communities, where there are housing and job opportunities, supported by key infrastructure and a range of services. Therefore the sites are located in the major settlements of Salisbury and Amesbury with one at Wilton due to its close relationship with Salisbury, as these settlements provide the best range of facilities to achieve self-containment. As well as the balanced nature of the settlements, many of the sites have been chosen to balance job and employment opportunities on a local basis. Furthermore some strategic sites will provide Local Centres to serve the development comprising additional community facilities such as a local shop. Such sites include Fugglestone Red, and Longhedge and South of Netherhampton Road.
		(b) Regeneration  These are areas that are at risk of decline if positive steps are not taken. Sites with an important regeneration purpose are UKLF Wilton (mitigating MOD vacating the site with the loss of 1200 jobs), Imerys (former aggregates quarry closed with loss of local jobs), Churchfields (a need to allow more expansion space for local businesses) and the Maltings/Central Car Park (to improve Salisbury's retail and leisure offer in the face of strong sub-regional competition).

Proposed Review Change Reference	CS REFERENCE	CHANGE
		(c) Frontloading delivery of housing  Not enough homes have been delivered to meet identified requirements in the past 10 years in south Wiltshire, leading to issues of affordability. There is a need to address this and to build contingency into this plan to ensure that uncertain market conditions or unforeseen events will not prevent the delivery of the strategy in the future. To do this a deliberate strategy of frontloading has been produced and all the strategic sites have been planned to commence delivery within the early years of the plan. This initial oversupply will build in contingency and help deliver affordable housing.
		(d) Securing economic growth  The economic centrepiece of this strategy is to provide enough new strategic sites to attract new business and facilitate the relocation of existing businesses from the constrained Churchfields Estate in Salisbury, thereby allowing them room to expand. The strategic sites will allow for a range of employment choices in sustainable locations around Salisbury. Fugglestone Red, Longhedge (Old Sarum), UKLF, South of Netherhampton Road, Central Car Park and the Imerys site, will all provide employment opportunities to facilitate this.
		New allocated employment sites will be delivered alongside allocated housing sites and will be master planned comprehensively to deliver a range of job types and unit size taking into account the most current Employment Land Review and decant uses required as a result of the regeneration projects. However, beyond Churchfields decant sites the majority are expected to be office based at Salisbury SSCT.
		Office and Research and Development based business parks will also be acceptable in order to try and achieve a step change in the job base at Salisbury SSCT. Such sites will also deliver flexible and affordable workspace, particularly small and start up units, on accessible lease terms to provide continuing opportunities for business start-ups. These start up or incubator units should be supported by shared business infrastructure relevant to the use class. Such units will be subject to a section 106 agreement to ensure that they remain so into perpetuity.
		Employment sites, as well as taking account of other relevant policies within this Core Strategy, including Core Policy 14 with respect to saved policy E8B, Porton Down, will be required to deliver important infrastructure to support the businesses and their employer's needs whilst at work. Infrastructure provision including a crèche, gym, shop and catering establishments as well as training facilities, all should help to secure inward investment. In addition all businesses should prepare Green Travel Plans.

Proposed Review Change Reference	CS REFERENCE	CHANGE
	Para 5.24, Figure 3, page 53	Replace Housing Trajectory with new trajectory representing updated figures.
	Para 5.27, page 54	In accordance with PPS3 the Core Strategy plans for the supply of continuous housing over a 16-year period and identifies specific sites and broad locations for further development. Furthermore, this strategy exceeds the requirements of PPS 3 in that it will deliver more than a 10-year supply of deliverable sites from the date of adoption of the Core Strategy. This "front-loading" approach has been deliberately designed to ensure that there is no shortfall in the delivery of homes in south Wiltshire. This approach, (to be achieved through the early release of strategic allocations, the saved Local Plan allocations and commitments) will provide over-8000 5000 houses in the initial years of the Strategy, and represents a step-change in housing delivery. A further supply of housing will also be delivered through a subsequent Site Specific Allocations DPD. This overall strategy ensures that we meet both-the requirements of the RSS and PPS3.
	Para 5.31 (a) Education, page 55	(a) Education  New secondary school capacity for Salisbury, which will initially be met through extension and rationalisation of existing stock, with a longer term aspiration for a new secondary school provision to be facilitated through developer contributions.
		New primary schools at strategic sites at Fugglestone Red, Hampton Park, and Longhedge and Harnham are required up front in the development process. On these strategic sites, land will be provided by the developers, who will also either provide the school building for the LEA or will provide a financial contribution so that the LEA's preferred operator can build the school.
	Para 5.41, page 58	While the frontloading strategy has been partly designed to treat the cause of past undersupply of housing it is important to emphasise that this is a forward looking strategy. The level of contingency built into the frontloading will allow non-delivery of several strategic sites and still allow the RSS targets and local needs figures to be met and thereby still address the challenges that under provision has caused. The driver of frontloading is thus twofold, both to address the challenges historic under provision has caused and to ensure that the Strategy has sufficient contingency to deal effectively with unforeseen circumstances.
	Para 5.46 (b)	(b) Strategic areas of search around Salisbury  The site selection process and the SHLAA have indicated broad areas of search around Salisbury, which may provide in the region of 1000 additional homes. Further work through a site allocation DPD will be required to further investigate these sites to see if they are deliverable 1. The site selection process which led to the selection of the

Proposed Review Change Reference	CS REFERENCE	CHANGE
		Strategic Allocations also identified an additional area which has potential for strategic development (Area 12 on the map in Appendix K) as well as a number of areas with limited potential for strategic growth (the blue areas on the map in Appendix K). These are the strategic areas of search round Salisbury which may provide for some 1000 additional homes and some 15ha of employment land. The identification of these areas of land is not tantamount to a future allocation. More work would need to be done either through the development management process or the Site Specific Allocations DPD to ascertain their appropriateness or otherwise for future development.  Delete MIN/47(as above) and amend to:  5.46 (b) Strategic areas of search around Salisbury  The map 'potential areas for strategic growth in and around Salisbury/Wilton' in topic paper 19 site selection process and SHLAA have indicatesed broad areas of search around Salisbury. which may provide in the region of 1000 additional homes. As part of our ongoing monitoring process, if further land is required in the future, the sites at Netherhampton and an additional phase at Longhedge, should be considered. If necessary further work
	Para 5.46 (d), page 60	through a site allocation DPD will be required to further investigate these sites to see if they are deliverable.  (d) The rural areas  The issue of giving local communities, especially in the rural areas more ownership over the level of growth they see as appropriate for their area is central to the Localism Bill. This will introduce neighbourhood plans and the community right to build in a way which hands more control over planning matters to the communities themselves. The published Bill states that Neighbourhood Plans must work inside some limits and will still need to be compliant with national planning policy.  Therefore, due to the views received from the communities and the publication of the Localism Bill it is considered that it is important that the Core Strategy makes provision for new housing in the rural areas in order to facilitate delivery of these local aspirations through neighbourhood plans and community right to build and ensures compliance with emerging national policy.  Consequently, Core Policy 1 indicates that 1,000 homes have been set aside to allow Neighbourhood Plans and Community Right to Build Schemes to deliver homes in rural areas that are put forward, prepared and agreed by the local communities.

Proposed Review Change Reference	CS REFERENCE	CHANGE
		The Sustainable Settlement Strategy and Core Policy 1 indicate how growth will be distributed across south Wiltshire.  A finer grain analysis through a Site Specific Allocations DPD will be carried out to identify how the growth can best be accommodated.
	Para 5.46 (f), page 60	(f) Review of existing employment and land supply  There is a large oversupply of employment land within the TTWA south Wiltshire at the current time 63. However this land is not in the optimum location. Para 5.3 of this Strategy identifies that Salisbury is where the larger proportion of growth will be concentrated with Amesbury providing significant growth outside of Salisbury. The RSS recognises Salisbury as is therefore the key employment centre with the key strategic aim being to extend and enhance the city as an employment and retail centre. It recognises that there are With opportunities for some modest job growth at locations such as Amesbury, but is clear that the majority of the extant employment land available in south Wiltshire no longer conforms with the RSS-the strategic aim-because it is not located in Salisbury 64.
		Some 64ha of employment land is available at Solstice Park, which no longer directly conforms to the RSS the strategic aim of this Core Strategy. However this land is consented and remains available for development. Therefore although employment development on this site can proceed in accordance with its planning permission, the allocation will not be relied on to meet the strategic requirements of the proposed to be abolished RSS and the allocating policy will not be saved. If the site is not developed in a timely manner it will be reviewed through the Site Specific Allocations DPD to identify whether the site is more appropriate for another use 65.
		Local Plan employment allocations have been saved which should deliver the 400 jobs in the Community Areas of <a href="Tisbury and Mere">Tisbury and Mere</a> needed outside of the TTWA over the period to 2026. However, this will be further assessed within the Site Specific Allocations DPD to determine if further employment land needs to be allocated.
	Para 5.48, page 61	The type of houses that are needed - affordable housing  Previous chapters have highlighted the problem in providing enough affordable housing in south Wiltshire. PPS3 requires an overall, plan-wide target to be set for the amount of affordable housing to be provided. The proposed to be abolished RSS requires that 35% of all housing development annually in the south Wiltshire HMA is affordable.  Core Policy 2 sets a target of 40% affordable homes on new development. This means that of the 12,400 9,900 homes that this strategy seeks to deliver, 4340 3960 need to be affordable homes. Since the start of the RSS-plan period (2006) to adoption of this Core Strategy (2010), 308 affordable dwellings will have been delivered through

Proposed CS RE Review Change Reference		ANGE
	perid step dete appi whe in du	appletions and commitments. Therefore, 4032 3652 affordable homes need to be delivered over the 16 year plan od of the Core Strategy (2010 to 2026), the equivalent of approximately 250 225 per annum. This represents a change from previous rates of delivery. Based on an economic viability study 66, Core Policy 3 below has been ermined which sets out the proportion of affordable housing sought for different site-size thresholds. A cascade roach to identifying appropriate occupiers will be implemented and the approach to the level of subsidy, or indeed other subsidy should be provided at all, and the availability of such housing in perpetuity will be subject of an SPD use course 67.
Core F 62	The the c	<ul> <li>e Policy 3 - Meeting Local Needs for Affordable Housing</li> <li>Council's target for affordable housing is that 259 225 of net additional dwellings per annum from date of adoption of the Core Strategy to 2026 should be affordable. This will be achieved by:</li> <li>A requirement for 40% affordable housing (net) on sites of 15 dwellings or more.</li> <li>A requirement for 25% affordable housing (net) on sites of between 5 and 14 dwellings.</li> <li>All affordable housing required by this policy, of 5 dwellings or above will be delivered on the development site. Only in exceptional circumstances, where a developer can prove to the satisfaction of the Local Planning Authority that on-site delivery is not possible, will a commuted sum be considered. The tests for considering off-site contributions will be set out in the forthcoming Affordable Housing SPD.</li> <li>On sites of 4 dwellings or less a financial contribution will be sought towards the provision of affordable housing. The level will be set within the Planning Obligations SPD.</li> <li>Tenure will be negotiated on a site-by-site basis to reflect the nature of the development and local needs as set out in Core Policies 6, 10, 11, 14 and 16, the up to date Strategic Housing Market Assessment and other available evidence. Affordable housing size and type, including any distinction between flats and houses, will be expected to reflect that of the demonstrable need for the community within which a site is located</li> <li>The provision of affordable housing will be negotiated on a site-by-site basis taking into account the viability of the development, the mix of affordable housing proposed and the availability of any additional public subsidy. Preference is for the provision to be made without public subsidy but if this can be demonstrated not to be possible for reasons of viability then the Council will consider other delivery mechanisms including the use of public subsidy, or the transfer of land.</li> <li>Affordable housing units will be disperse</li></ul>

Proposed Review Change Reference	CS REFERENCE	CHANGE
		including on exceptions sites outside of settlement boundaries, if a local need has been identified where environmental considerations will not be compromised. Sites should be sensibly and sensitively located within easy access to employment and services.
		The need for and type of affordable housing will be reviewed regularly throughout the plan period as set out in PPS3, and revised targets will be determined depending on the prevailing housing need and market conditions at the time, following a public consultation period. This will only occur if the housing need varies by more than 10% from the previously set target.  Targets: 250 225 affordable housing completions annually  Monitoring and Review: AMR & housing trajectory, annual number of affordable housing completions. Strategic Housing Market Assessments.
		Delivery Responsibility: Wiltshire Council, Development Industry, Strategic Partnerships, RSL's. Policies replaced: Policy H25, Policy H26.
	Para 5.51, page 63	Making adequate provision for Gypsies and Travellers  South Wiltshire already has a good range of pitches for Gypsies and Travellers (around 35% of the total county provision) and the number of unauthorised encampments has been low, however there is a need to make provision for additional accommodation <sup>69</sup> . The proposed to be abolished RSS requires the provision of an additional eighteen residential and five transit pitches in south Wiltshire to 2011 as well as contributing towards the 5 plots required to meet the needs of travelling show people. This provision will be delivered through a DPD for the whole of Wiltshire.
	Para 6.1, page 71	Portrait of Salisbury Salisbury city is the main centre of south Wiltshire, acting as a focal point for a wide rural catchment and it is identified in the emerging soon to be abolished RSS as a strategically significant city. The council has undertaken a visioning exercise, which sets out plans for the future evolution of the city.
	Map 4	Remove 'Land south of Netherhampton Road' from map and references within key.
	Para 6.8 and 6.9, page 73	Providing decent homes and employment opportunities in and around Salisbury and Wilton.
		The scale and distribution of growth  7480 6220 new homes and 36 29 ha of employment land (comprising 23 30 ha new allocation and 6 ha saved) will be provided to meet Salisbury and Wilton's needs over the lifetime of this Strategy, and as shown in Map 4. Because of how the administrative boundaries around the city are set out, a large proportion of the allocations are not located

		· Southampton Road (@750 dwellings)
		In general terms these sources are identified as:
		No Of Dwellings Employment (ha)
		Salisbury SSCT Area Of Search 1132 15 Salisbury Vision Sites 800 0
	Para 6.17, page 76	The main sources of employment growth for the Salisbury and Wilton area will be through new strategic allocations as detailed in Core Policy 2 above and major regeneration schemes identified below. Retail growth will be delivered in the city centre through the redevelopment of the Maltings/Central Car Park. The Strategy will deliver 43,40 or around 10,400 jobs including on 29 36 ha of employment land based on B1, B2 and B8 uses and up to 40,000 sq m gross external area retail and leisure floorspace. Evidence strategies that for new jobs the market need is for around 19 ha of mainly for B1 business use (offices), in the region of 4 ha for B2 general industrial uses and the remaining approximately 13 ha for storage and distribution. The main sectors that are forecast to expand are hotels and catering, the wider service industries, distribution and education and health. This Strategy provides a range of sites in locations around the city to suit all needs and uses will be located appropriately. For example the Imerys site is most appropriate for heavy industrial uses, while offices would be appropriate on the redeveloped Churchfields site. The types of use appropriate to each strategic site allocation are included In the Development Templates In Appendix A.
	Para 6.28, page 80	These outcomes will be delivered from the following sources:  Managing Delivery of the Strategy for Salisbury and Wilton  The housing trajectory shows how the Strategic Site Allocations in Salisbury and Wilton (alongside those in Amesbury and Wilton) will be delivered in a timely manner to meet local needs and the RSS targets. The trajectory is based on a realistic evaluation of housing supply, informed by the Strategic Housing Land Availability Assessment ("SHLAA"), which has included evidence from developers regarding projected build rates and the requirements and timing of essential infrastructure provision <sup>89</sup> . For the critical influence of infrastructure on timing of delivery see Chapter 5 and the Integrated Delivery Plan in Appendix E. Managing risks and making contingencies are also critical to delivery and the approach adopted in this Strategy with respects to contingency is explained in Chapter 5. An analysis has been carried out on the potential risks to delivery of the strategic sites, the mitigation and actions taken in respect of these risks, and the possible implications for the Core Strategy. The Risk Analysis is attached to the Core Strategy as

Proposed Review Change Reference	CS REFERENCE	CHANGE
		Appendix I.
	Figure 4, page 81	Housing Trajectory needs replace with updated housing numbers.
	Para 6.30 (b), page 81 bullet 2.	New primary schools at strategic sites at Fugglestone Red, Hampton Park, <u>and Longhedge and Harnham</u> are required up front in the development process.
	Map 5, page 85	Amend annotation on map to reduce numbers at Longhedge from 800 to 450 and amend area of Longhedge on map in line with changes.
	Para 7.10, page 92	The scale and distribution of growth  220 new homes and 3 ha of employment land will be provided to meet the needs of the Wilton  Community Area over the lifetime of this Strategy. Housing may be delivered through locally produced  Neighbourhood Plans or Community Right to Build schemes as detailed in CP1 and paragraph 5.46. Core Policy 2 in  Chapter 5 sets out the strategic allocations. These allocations are shown on the map above and in summary are:
		Site allocation No. of Dwellings Employment (ha) UKLF 450 3
	Para 8.7	The scale and distribution of growth  2650 2395 new homes and 17 ha of employment land will be provided to meet the needs of the Amesbury  Community Area over the lifetime of this Strategy 102. Core Policy 2 in Chapter 5 sets out the strategic allocations.  Housing may also be delivered through locally produced Neighbourhood Plans or Community Right to Build schemes  as detailed in CP1 and paragraph 5.46. These allocations are shown on the map above and in summary for the  Amesbury Community Area include:
		Site Allocation No. of Dwellings Employment (ha) Kings Gate 1300 0
	Para 8.18	8.18 Existing employment land supply The Amesbury Community Area is the location of the majority of the currently allocated employment land in south Wiltshire. However, as explained in Chapter 5, the soon to be abolished RSS recognises Salisbury as the key employment centre and hence the existing allocation is not in conformity with this.
	Para 8.20	8.20 At Solstice Park, Amesbury, some 64ha of employment land is available. This no longer conforms with the soon to be abolished RSS, which instead directs major employment growth to Salisbury. However this land is consented and has been the subject of significant investor commitment prior to revisions to the RSS being introduced. Therefore, employment development can proceed on this site as per the existing planning permission, but the

Proposed Review Change Reference	CS REFERENCE	CHANGE
		allocation will not be saved from the last local plan 107.
	Para 9.9	The scale and distribution of growth  740 665 new homes will be provided to meet the needs of Southern Wiltshire Community Area over the lifetime of this Strategy. These will be in addition to the two major growth sites for Salisbury in the parish of Laverstock identified in Chapters 6 and 7. Housing may also be delivered through locally produced Neighbourhood Plans as part of the Rural Allowance.
	Para 10.10 , page 116	10.10 The scale and distribution of growth  290 200 new homes and 3 ha of employment land (on a saved Local Plan allocation) will be delivered to meet needs in the Mere Community Area over the lifetime of this Strategy. It is anticipated that most, if not all, of this growth will be centred on Mere. However, the Strategy is designed to be flexible and has the potential for some of the growth to be accommodated through infill and affordable exception development at Zeals. Housing may also be delivered through locally produced Neighbourhood Plans as part of the Rural Allowance. The identification of new growth sites will be made through the subsequent Site Specific Allocations DPD. No new strategically important sites have been identified in this Core Strategy but the following is saved:  Saved Local Plan allocation  No. of Dwellings  Employment (ha)
		E12 Land at Mere 0 3
	Para 11.8, page 123	440 420 new homes and 1.4 ha of employment land (on a saved Local Plan allocation) will be provided in the Tisbury Community Area over the 20 year lifetime of this Strategy. The identification of new growth sites will be made through a subsequent Site Specific Allocations DPD. Housing may also be delivered through locally produced Neighbourhood Plans as part of the Rural Allowance. No new strategically important sites have been identified in this Core Strategy but the following mixed-use site is saved:
		Saved Local Plan allocation No. of Dwellings Employment (ha) Land at Hindon Lane, Tisbury (H14) 90 1.4ha
	Para 12.4, page 131	Green infrastructure Green infrastructure ("GI") is the physical environment within and between our cities, towns and villages. It is a functionally linked network of open spaces, including formal parks, gardens, woodlands, green corridors, waterways, street trees, open countryside, and sites of importance for biodiversity. The soon to be abolished RSS requires authorities to produce Green Infrastructure Plans133.

	Para 13.1, page	Remove line with respect to land South of Netherhampton Road:
	138	South of Netherhampton Rd
		assessment in progress
	Appendix A, Page 145-147	Hampton Park
		Site Description This area of land to the east of the City is limited by the A345, the built envelope of Paul's Dene, Bishopdown, and Hampton Park, the flood plain of the River Bourne, the village of Ford, and the Conservation Area at Old Sarum Airfield. It has a gradual slope down to the Bourne with some level sections in the centre and south. There is a sharp rise towards Castle ridge.  Objectives for the development To develop 500 new homes through a high quality residential development which delivers an appropriate sense of place in accordance with the South Wiltshire Design Guide, 'Creating Places', in a sustainable location close to Salisbury in a manner that compliments the existing community at Bishopdown Farm and makes a significant strategic contribution to meeting the local housing needs of South Wiltshire. Specific issues to be addressed are:
		<ul> <li>□ Protection of the strategic landscape setting of the northern slopes of Salisbury including safeguarding views to and from Old Sarum Scheduled Ancient Monument.</li> <li>□ Strategic gap planning to ensure Ford retains its independent character and does not become merged with the city.</li> <li>□ The delivery of a significant country park that will be handed to the local community in perpetuity.</li> <li>□ To deliver a development that is adequately served by essential infrastructure including transportation, water, drainage, education, healthcare and emergency services and green infrastructure.</li> <li>□ To plan for the permanent retention and enhancement of the Castle Hill/Bishopdown green lung to the city as a key area of habitat retention and informal recreational open space.</li> </ul>
		☐ To deliver a development which conserves and in places enhances the natural environment, including the quality of the Bourne tributary of the River Avon SAC/SSSI

Proposed Review Change Reference	CS REFERENCE	CHANGE
		Site Constraints  The sensitive landscape at the northern slopes of Salisbury including the setting of Old Sarum SAM  Strategically important green lung at Bishopdown/Castle Hill  Retention of the separate identity of Ford and avoiding potential coalescence.  The Bourne tributary to the River Avon SAC  High pressure gas main to west of the site  Retention of existing byways  Existing residential amenity to the north and south  Salisbury Air Quality Management Zone  Interface with existing residential properties and rural fringe
		Land uses and quanta of development 500 new dwellings of which a minimum of 40 % will be affordable. The breakdown will be as detailed in Core Policy 6.  Essential Infrastructure Requirements Education: 1 form entry primary school and contributions towards secondary education Transportation: Any major infrastructure requirements outcomes identified by the Salisbury Transport Model. A Transport Assessment setting out how the model shift promoted at national and RSS level will be achieved. Green Infrastructure: 1 in 10 dwellings to have facilities for roosting bats. New woodland hedging and native species to connect to retained hedges to River Avon. Surveys of protected species, especially botanical, in June/July Heritage/Salisbury Historic Environment Assessment: High risk to the west at Old Sarum SAM. Great potential for archaeology, field systems and Roman remains. Trial pitting under supervision of Wiltshire Council Archaeologist required.  Drainage and Water: Dedicated spine main to provide capacity. Sewers: limited capacity - requires off-site link plus extensive downstream improvements. Cumulative development within the upstream catchment at Old Sarum, Hampton Park and Longhedge developments will trigger significant works with new relief sewer to ensure that risk from sewer flooding is resolved. A contribution is required towards a management and mitigation plan to address
		phosphate levels in the watercourses and their threat to protected species as well as its implementation.  PCT: Financial contribution towards new or improved doctors and dentist surgeries.  Emergency Services: Contribution to the provision of a new community fire station or improvements to existing

Proposed Review Change Reference	CS REFERENCE	CHANGE
		facilities in order to provide a comprehensive and flexible responses to future emergencies. Renewable energy: 10% renewable energy generated on or near the site.
		<ul> <li>Place shaping requirements</li> <li>In addition to the provisions of 'Creating Places' and saved Local Plan policies, master planning of this site needs to specifically address:         <ul> <li>Safeguarding zone for the high pressure gas main</li> <li>A strongly defined urban/rural edge to the north of the site</li> </ul> </li> <li>The layout and utility of the Country Park, with added flexibility over the future function of the green open space to allow the community to agree its best use.</li> <li>Any master plan must ensure the delivery of a significant Defining the strategic gap between the development and the settlement of Ford the size of which is to be agreed with the local planning authority and the community representatives prior to submission of a planning application.</li> <li>A community forum be established to help steer the development for the site and ensure that outcomes meet local aspirations.</li> </ul>
		Strategic Linkages Linkages with the existing residential development at Bishopdown Farm and Hampton Park, to ensure that the new communities can integrate.  Delivery Mechanism This site should be the subject of partnership between private and public sector based on frontloading a master plan to be approved by the Local Planning Authority as part of the planning application process. This Master Plan will guide the private sector led delivery of the site.  Key delivery milestones, monitoring and review This site has been chosen not only because strategically, environmentally and consultatively it can make a significant contribution to meeting local needs through regeneration, but also because early discussions with land owners, agents and prospective developers have encouraged the Local Planning Authority that this site can be brought forward within the first five years. In order to safeguard the delivery of housing within this 147  period the following milestones will be adhered to:  Immediate partnership working with LPA and stakeholders frontloading matters

Proposed Review Change Reference	CS REFERENCE	CHANGE
		□ A planning application accompanied by master plan and design code within 18 months of adoption of the Core Strategy. □ A section 106 agreement will be required setting key milestones for delivery including that the site shall start delivering housing within 12 months of the grant of permission and a phasing agreement setting out completions at agreed milestones moving forward. Failure to meet any of the above deadlines without production of compelling justification will lead to conclusion that the site is not deliverable and the site could be de-allocated in a mini-review of the Core Strategy and the site replaced with an alternative site where more certainty exists.  An independent viability review of the site will be undertaken by Wiltshire Council within two years to review the standards of delivery set in view of the projected recovery from the recession of 2009. This review will not be undertaken where the developer has demonstrated commitment through delivery in the first two years of the Strategy.
	Appendix A, page 161-163	Remove development template for Land south of Netherhampton Road, Netherhampton.
	Appendix A, page 164-166	Description of site The site is located to the north of Salisbury city, to the north east of Old Sarum and the A345. To the south of the site is the Beehive Park and Ride site, largely screened by trees, and a small area of employment land. To the east is an employment site and Old Sarum Airfield, which is a Conservation Area. To the immediate east is an existing Local Plan allocation site, where detailed planning permission has been granted for 600 dwellings and building has commenced. This site lies to either side of the Salisbury City Football Club stadium.  Objectives for the development To develop a housing led mixed use development of 800 450 dwellings and 8 ha of employment, through a high quality master plan which delivers an appropriate sense of place in accordance with the South Wiltshire Design Guide, 'Creating Places' in a sustainable location, in a manner which compliments the existing community and makes a significant strategic contribution to meeting local housing needs of South Wiltshire. Specific issue to be addressed are:
		☐ The introduction of additional dwelling to the Old Sarum area will add a critical mass to secure the delivery and viability of planned and new local facilities to create a more self-contained community based around a neighbourhood

Proposed Review Change Reference	CS REFERENCE	CHANGE
		centre.  ☐ The provision of employment opportunities for both new investment and decant from Churchfields.
		Site constraints    Football stadium and airfield noise will need to be mitigated   Highways impact on Castle Road and wider area, and associated impact on air quality   Impact on setting of Old Sarum SAM and Old Sarum Airfield Conservation Area   High potential for unknown archaeology on the site   Street lighting designed to minimise light pollution and sky glow.
		Land uses and quanta of development The site comprises approximately 51ha and will accommodate a mix of employment and housing. The site will deliver approximately 800 450 dwellings of which a minimum of 40% will be affordable. The breakdown will be as detailed in Core Policy 6. Community infrastructure and approximately 8ha of employment land which will include general industrial, office, research and development, storage and distribution, but exclude retail.
		Essential Infrastructure Requirements Education:-2 1 form entry primary school and financial contributions for secondary. Transportation: Any major infrastructure requirement outcomes identified by the Salisbury Transport Model. A Transport Assessment which sets out how the modal shift promoted at national and soon to be abolished RSS level will be achieved, including improved, bus, cycle and walking routes and possible junction improvements at Beehive roundabout, opportunities for links cycle and footpath to the Salisbury city centre, Beehive Park and Ride and other strategic sites. Implementing measures to prevent overloading of Castle Road and potential contribution to Beehive Park and Ride. Contribution to addressing the objectives set out in the Salisbury AQMA Green infrastructure: Formal and informal public open space to be provided on site. Strategic landscape plan required to ensure opportunities to improve views from Old Sarum, through the screening of existing functional buildings. The strengthening of existing tree belts at the site. Flooding: A flood risk assessment will be required and satisfy the requirements of PPS 25, reference should be
		made to the Level 1 SFRA  Drainage and Water: This should pay particular attention to drainage and the control of surface water by the use of SUDS. Engineering assessment of water and foul sewer drainage at the site and potential capacity improvements at

Proposed Review Change Reference	CS REFERENCE	CHANGE
Reference		Petersfinger sewerage works and potable water capacity. Cumulative development within the upstream catchment at Old Sarum, Hampton Park and Longhedge developments will trigger significant works with new relief sewer to ensure that risk from sewer flooding is resolved.  PCT: Financial contribution towards new or improved doctors and dentist surgeries.  Emergency services: Contributions towards the Fire Service for new or improved fire stations in order to provide a comprehensive and flexible responses to future emergencies.  Community facilities and services: Additional community facilities and services to complement and reinforce the viability of the already planned district centre.  Renewable Energy: 10% renewable energy generated on or near the site as per RSS policy.  Place shaping requirements
		In addition to the provisions of 'Creating Places' and saved Local Plan policies, master planning of this site needs to specifically address:  There are opportunities to secure the long term future of Old Sarum Aerodrome through some sensitive new development, acting as a catalyst for a new Management Plan related to heritage and a legal agreement which controls the level of flying activity, which has been a longstanding issue locally.  Key views to and from Old Sarum and impact on the SAM.  Show how the new neighbourhood can be integrated into the existing community, both residential and commercial and into the built and natural environment.  Employment land should not comprise development that will cause a nuisance to the new or existing residents.
		Strategic Linkages Linkages with the existing allocated site at Old Sarum to ensure that the new communities can integrate and function as one.
		Delivery Mechanism This site should be the subject of partnership working towards based on frontloading a Master Plan to be approved by the Local Planning Authority as part of the planning application process. This Master Plan will show integration with the existing proposed development of 650 dwellings at Old Sarum.
		Key delivery milestones, monitoring and review This site has been chosen not only because strategically, environmentally and consultatively it can make a significant

Proposed Review Change Reference	CS REFERENCE	CHANGE
		contribution to meeting local needs through regeneration, but also because early discussions with land owners, agents and prospective developers have encouraged the Local Planning Authority that this site can be brought forward within the first five years. In order to safeguard the delivery of housing within this period the following milestones will be adhered to:    Immediate partnership working with LPA and stakeholders frontloading matters   A planning application accompanied by master plan and design code within 18 months of adoption of the Core Strategy.   A section 106 agreement will be required setting key milestones for delivery including that the site shall start delivering housing within 12 months of the grant of permission and a phasing agreement setting out completions at agreed milestones moving forward.  Failure to meet any of the above deadlines without production of compelling justification will lead to conclusion that
		the site is not deliverable and the site could be de-allocated in a mini-review of the Core Strategy and the site replaced with an alternative site where more certainty exists.  An independent viability review of the site will be undertaken by Wiltshire Council within two years to review the standards of delivery set in view of the projected recovery from the recession of 2009. This review will not be undertaken where the developer has demonstrated commitment through delivery in the first two years of the Strategy.
	Appendix D, page 183	Remove 'Land south of Netherhmapton Road' from Map. Reduce size of proposed Longhedge allocation to reflect the Review.
	Appendix E, page 189	Strategic Objective 2: To provide everyone with access to a decent, affordable home.  Desired outcomes:  • The delivery of at least 12,400 9,900 new homes carefully managed to be in the most sustainable location and to respect the local character. Well over half the number will have been built in or around Salisbury, with significant growth in Amesbury.
